

Want More Out Of Your ERP System?
Software Designed Exclusively For Microsoft Dynamics GP
Will Instantly Raise Your Staff's Productivity By Up To 68%

Boost Your Bottom Line and Your Customer Service

Repetitive mistakes using Microsoft Dynamics® GP are stripping profits right off your company's bottom line. This is especially true if you have multiple people performing data entry tasks.

Duplicate customer orders, products being shipped to customers who've exceeded their credit limit, or promising shipment when an item is actually out of stock are all common — and costly — mistakes.

EthoTech Customer Service Collection will literally increase your efficiency overnight, save your company up to \$125,000 per year, and insure that you're providing a superior level of Customer Service.

- Automatically checks for duplicate purchase orders.
- Prints shipping labels from Sales Transaction Entry and Sales Order Fulfillment.
- Moves multiple sales documents from one batch to another.
- Tracks the expected receipt date of items that are yet to be received in inventory. This is not possible in Microsoft Dynamics GP Business Essentials as 'Available To Promise' functionality is not available.
- Tracks the quantity of unallocated inventory...again, not possible in Microsoft Dynamics GP Business Essentials.
- Shows apply information for SOP invoices and returns in SOP Inquiry.
- Displays additional inventory fields for each Sales Transaction Entry line item.
- Initiates restocking charge percentage for SOP returns.
- Auto-assigns credit limit process holds.

Simplify and Speed Up Your Data Entry

Every single day, you create and enter new Customer IDs using Microsoft Dynamics® GP. Sounds easy enough, right? The problem is that maintaining and policing a business policy for creating meaningful master record IDs is both time consuming and error prone. Your existing Microsoft Dynamics GP system does nothing automatically to streamline this process.

EthoTech Next Numeric Collection eliminates the need for you to implement and monitor new policies in order to ensure that the correct records are being created. Now your system will automatically generate the next number needed for all of your master record types, as well as eliminate gaps in your alpha-numeric sequence that require time-wasting data research and entry.

- You'll no longer have to manually maintain and police a process for creating accurate master record IDs.
- Applies to IDs for Customers, Vendors, Inventory Items, Fixed Assets, Employees, Salespeople, Prospects, Project Accounting Contract IDs and Project IDs, and WennSoft Job Numbers.
- Automatically assigns Batch IDs when creating transaction batches in the Receivables, Sales or Purchasing modules.
- Works seamlessly with the alternate Customer and Vendor Maintenance windows in the Microsoft Dynamics GP Project Accounting Series and WennSoft Job Cost.
- Use *EthoTech Next Numeric Collection* in conjunction with *EthoTech SmartSort* to access your information quickly.

Sort Lookup Information YOUR WAY

If you use Microsoft Dynamics® GP, you've already discovered that getting your hands on critical and time sensitive information may not be so easy!

With *EthoTech SmartSort*, you can automatically sort lookup information YOUR way! You'll quickly find all your important information in your system by customizing your own view based on built-in advanced sorting options or SmartList favorites. AND you can use *SmartSort* with **over 40** Microsoft Dynamics GP lookup windows.

SmartSort will literally speed up your inquiries — and your data entry — by *eliminating as many as 3 mouse clicks per lookup*.

Formerly a \$1,000 value, *SmartSort* is now yours for FREE! There's no obligation of any kind, not even a requirement that you run any of our other EthoTech products!

At EthoTech, we've been so successful with our enhancements designed specifically for Microsoft Dynamics GP, we've decided it was time to give back to the community. That's why *SmartSort* is FREE of charge to our partners and to our customers.

There are at least 17 ways that *SmartSort* will put your profits back where they belong... on your bottom line. Here are just a few:

- 1 What if every time you looked up customers in Microsoft Dynamics GP, the resulting data was automatically sorted by Customer Name AND it filtered out inactive customers?
- 2 How would you like to instantly filter your inventory lookup data to show only those items that are sellable (Finished Goods)?
- 3 How about filtering your GL account lookup data by Department to show only those accounts relevant to your division?

There are many more ways that *SmartSort* saves you time and money. Download *EthoTech SmartSort* now FREE of charge with no obligation whatsoever, not even a requirement that you run any of our other products!
